Project Management Intern, AutoBizz	March 6, 2025 – September 30, 2025
Project Manager & HR Intern, AutoBizz	September 1, 2025 – March 25, 2026
Project Manager, HR Executive, AutoBizz	March 25, 2026 - Current

Personal Projects

- [Paint Dashboard](#)

A single-page website that is based on **Tailwind CSS** with an **HTML5** structure and responsive design for device compatibility.

- [Grow](#)

A simple website with a proper dashboard and login page that consists of some tools like: diary, to-do list, health survey, and so on. It is purely built using **HTML** and **CSS**.

- [Alexa-Simulation](#)

A **Python** project using Python libraries to simulate a home virtual assistant, Alexa.

- [ATM Simulator](#)

A project completely based on an ATM system that is built using **Java**. It contains login, dashboard, and transaction pages to interact with it.

- [GenZ-Fashion demo webpage](#)

A single webpage that was initially written using **HTML5** and **Tailwind CSS**, and later rebuilt using **Daisy UI**.

- [BD-architects](#)

A website that is built purely with **HTML** and **CSS** to showcase my beginner knowledge.

- [Mentor-booking](#)

It is a **Next.js** project that was built using **Tailwind CSS** for styles. This demo website is built to book a mentor.
